ACUPUNCTURE

Energy(Qi) Balance

Do you have some
pains on your body?

If yes, it's an unbalance or a circulation problem of energy(Qi).
It's almost the same a traffic jam on the freeway during rush hour.

☹Backpain

In according to the Korean Traditional Medicine theory(KTM),
back-pain can be caused by kidney Qi deficiency, stasis of blood or
Qi stagnation, etc.
But the simple word is "the problem of Energy(Qi) Circulation."

Our body is made of Energy and we have two types battery.
One is non rechargeable, the other one is rechargeable.
The former gets from parents and it can't rechargeable (we called it
kidney essence or kidney Qi), while the latter gets from food and air.

These two batteries are mutual exchange constantly and supply the energy to the organ, blood, skin and mind by meridians.

So you can imagine how much important Energy balance & circulation. Energy balance is a harmony of *Yin & Yang* like a good play of orchestra, energy circulation is like a freeway without traffic jam.

If you want to cure your pain, circulate and balance your energy.
